Expected result:.Displayed filtering tab on the top (options: People, Post, Companies, Groups, Jobs, Products, Services, Events, Courses, Schools). In the centre area profiles and posts of users with searched name.
Defect impact: LOW

3. STATISTICS:

Total number of test: 40
Executed tests: 36/40
Blocked test: 2/40
Not executed tests: 2/40

Defects found: 3/36
Impact of defects:
High: 0/3
Medium: 0/3
Low: 3/3

4. CONCLUSION:

A small number of errors were detected with low impact to the functionality of the search feature.
Errors do not significantly affect the functionality of the search. Some of the errors found can be troublesome, but they are difficult to detect by the end user and are easy to avoid by, for example, typing data correctly.
